

High-confidence recommendations powered by advanced statistical modeling & AI.

## ABOUT

Crypto Tutors is an NSF-backed technology company using its patent-pending AI and statistical modeling IP for government decisions.

## MISSION FIT

Use cases include supply-chain optimization, asset validation, synthetic data generation, and simulation modeling of mission, organization, and personnel.

## PAST PERFORMANCE

Awarded by the National Science Foundation

### National Science Foundation — SBIR Phase I & II

Researched, built, and validated DeFi All Odds: a non-parametric bootstrap Monte Carlo weighted-matching algorithm powering a career-assessment platform. U.S. patent application no. 19/280768, entitled “Dynamic Recommendation Generation Using Statistical and Artificial Intelligence Modeling.”

### Enterprise workforce education

Delivered enterprise education in blockchain, smart contracts, and digital assets through role-specific curricula, expert tutoring, and secure learning portals. Programs have supported teams at Microsoft, Coinbase, and Cash App.

## DIFFERENTIATORS

Crypto Tutors has a team of PhDs in Statistics and Assessment.

Two founders have previous experience working for LinkedIn.

All team members are Blockchain experts.

Owned Patent Pending IP. Not licensed or resold.

$$F_N = \frac{1}{N} \sum_{i=1}^N \frac{f(X_i)}{p(X_i)}$$

## CORE COMPETENCIES

### AI & STATISTICAL MODELING

HUMAN-MACHINE TEAMING  
ASSESSMENT & ANALYTICS  
SURVEY COLLECTION  
CUSTOM DATABASE  
SYNTHETIC DATA  
AI INTEGRATION

### MILITARY USE CASES

SUPPLY CHAIN VALIDATION  
IN-TRANSIT VISIBILITY  
MISSION READINESS  
INCREASE PRODUCTIVITY  
RAPID REACTION  
SURGE DEPLOYMENT

### BLOCKCHAIN EXPERTISE

BLOCKCHAIN EDUCATION  
ORGANIZATIONAL UPSKILLING  
SMART CONTRACTS  
DIGITAL TWIN  
DIGITAL LEDGER  
LOGISTICS RECORD KEEPING

## NAICS CODES
